# DRIVE 4G-M

weBoost brings seamless, uninterrupted cellular connectivity for everyone in your vehicle. Cell phones are an essential part of our lives – especially when we're on the go.

Whether around town or on a long road trip, the weBoost Drive 4G-M™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in your car, truck, van or RV.

Installation is easy – no tools needed. A step-by-step video guides you through the process. No special tuning or alignment is required.

weBoost improves your coverage—including 4G— no matter which cellular carrier you use in the United States and Canada. The Drive 4G-M comfortably handles multiple simultaneous connections across multiple carriers, providing effortless voice and data communications for all users.
