

THE JABRA HANDSET 450™

THE PERFECT UC EXPERIENCE FOR USERS WHO PREFER A HANDSET.

Ensure seamless integration of Unified Communication (UC) and a positive user-experience for users who have a necessity for wireless freedom but prefer using a handset.

Jabra Handset 450™ is the perfect solution for these users. It combines the comfort of a wireless phone experience with the many benefits of a UC solution. Offering premium audio quality, remote call control, and plug-and-play installation, the wireless Jabra Handset 450 is the seamless upgrade from a wired desk phone. Fully compatible with Skype for Business and other softphones and certified for Cisco, Handset 450 enables you to choose the way you work.

CRYSTAL CLEAR SOUND

Handset 450 integrates wideband audio to give you a crystal clear and natural sound experience, guaranteeing that you won't miss any details. The noise-canceling microphone will eliminate any background noise and ensure that you are always heard.

WIRELESS, SECURE AND SIMPLE

Jabra Handset 450's plug-and-play solution ensures that installation is truly hassle-free. Wireless DECT technology allows you take the call anywhere in the office, with up to 66 foot range. High security DECT encryption and physical pairing, (rather than over the air) safeguards superior transmission security.

YOU'RE IN CONTROL

Several Handset 450 features enhance user-convenience, allowing you to have firm control. Lift the handset to answer a call. Put it back in the cradle to end it. Easy-controls allow you to mute calls and adjust volume. A beep-tone will let you know if there is a call waiting. The rechargeable battery gives you up to 15 hours talk time.

REASONS TO CHOOSE THE JABRA HANDSET 450

Get the combined benefits of a convenient wireless handset and new, softphone-based UC technology

Enjoy ease of installation and use with USB-based, plug-and-play solution

Experience professional sound quality, with wideband audio
